

Standard Currency Forward

Standard Currency Forward is a financial derivative, by means of which it is possible to ensure the current rate for a specific date in the future.

When should Standard Currency Forward be utilised:

The client already knows that in cca. a month s/he will need to pay the invoice in EUR. Because s/he seeks to avoid any exchange losses, s/he secures the current rate by means of a future settlement and determines the exact date on which the actual settlement of the transaction shall take place. If a situation occurs on which, for example, the date of the payment of the client's invoice will be altered, at that point it is possible to arrange a Swap, whereby the date of the settlement of the original Standard Currency Forward is shifted to either an earlier or a later date.

a) Arrangement of a Standard Currency Forward – e.g. the client is purchasing EUR and selling CZK

The date of the arrangement of the Standard Currency Forward 1.9.2014

FWD value	Exchange rate	FWD value	Date of the settlement
EUR 100,000	27.50 CZK per EUR	CZK 2,750,000	1.10.2014

The amount of the deposit of 5% as of 1.9.2014 CZK 137,500 (CZK 2,750,000 x 0.05)

b) Settlement of a Standard Currency Forward as of the date of the settlement

The date of the settlement of the Currency Forward 1.10.2014

(The current exchange rate: 28.00 CZK per EUR)

Forward value in EUR EUR 100,000

Forward value in CZK CZK 2,750,000

The amount of the deposit of 5% as of 1.9.2014 CZK 137,500 (CZK 2,750,000 x 0.05)

The client transfers to Citfin CZK 2,612,500
(i.e. CZK 2,750,000 as the value of the Standard Currency Forward - the deposit of CZK 137,500)

Citfin transfers to the client EUR 100,000

c) Settlement of the Standard Currency Forward prior to the agreed date of the settlement

A Currency Swap enables the client to settle the Standard Currency Forward even prior to the agreed deadline.

FWD value	Exchange rate	FWD value	Date of the settlement
EUR 100,000	27.50 CZK per EUR	CZK 2,750,000	1.10.2014

The date of the settlement of the Standard Currency Forward prior to the agreed date of the settlement: 15.9.2014

The value of the deposit of 5% as of 1.9.2014 CZK 137,500 (CZK 2,750,000 x 0.05)

The client wishes to settle the forward transaction on 15.9.2014

The current exchange rate CZK 28.00 per EUR

A SWAP prior to the agreed date of the settlement

Exchange No. 1 the client is selling EUR 100,000; exchange rate EUR/CZK 27.50 as of 1.10.2014

Exchange No. 2 the client is purchasing EUR 100,000; exchange rate EUR/CZK 27.505 as of 15.9.2014

The difference between the originally secured rate of CZK 27.50 per EUR and the currently traded rate of CZK 27.505 per EUR is defined in terms of PIP points, which constitute an integral feature of the calculation of the forward exchange rate, by taking into account the time value of EUR as of 1.10.2014 and as of 15.9.2014.

The difference between the current and the original value of the transaction = 2,750,500 – 2,750,000 = CZK 500

The client transfers to Citfin CZK 2,613,000

(EUR 100,000 at an exchange rate of CZK 27.50 per EUR = CZK 2,750,000, i.e. the original value of the Standard Currency Forward - the deposit of CZK 137,500 + CZK 500 of the difference between the current and the original exchange rates = CZK 2,613,000)

Citfin transfers to the client EUR 100,000

d) Settlement of the Standard Currency Forward using a SWAP

If the settlement date of the Standard Currency Forward occurs and the client does not wish to or is unable to settle this forward transaction on the due date of 1.10.2014, s/he arranges a SWAP, whereby the client "shifts" the liability arising from the Standard Currency Forward to a future date, e.g. to 1.11.2014.

SWAP

The current exchange rate CZK 28.00 per EUR

Exchange No. 1 the client is selling EUR 100,000; exchange rate EUR/CZK 28.00 as of 1.10.2014

Exchange No. 2 the client is purchasing EUR 100,000; exchange rate EUR/CZK 28.02 as of 1.11.2014

The difference between the originally secured rate of CZK 27.50 per EUR and the current swap rate of CZK 28.00 per EUR is an exchange difference, by means of which the client is able to increase the rate and that, at the same time, also represents a deposit.

The difference between the current rate of CZK 28.00 per EUR and the future rate of CZK 28.02 per EUR is defined in terms of PIP points, which constitute an integral feature of the calculation of the forward exchange rate, by taking into account the time value of EUR as of 1.10.2014 and as of 1.11.2014.

The original value of the forward = 27.50 x 100,000 = CZK 2,750,000

The current value of the forward = 28.00 x 100,000 = CZK 2,800,000

The difference between these values = 2,800,000 – 2,750,000 = CZK 50,000

The original deposit implemented by the client = CZK 137,500

The current value of the deposit following the SWAP = CZK 187,500

The balance of the deposit = CZK 50,000

Calculation of the Deposit

Citfin requires a 5% deposit on forward transactions, which the client transfers upon the completion of the arranging of these transactions. In the event that the exchange rate were to fluctuate significantly within the duration of the forward transaction to the detriment of an open position and should its securing by the deposit fall below 2.5%, Citfin may ask the client to replenish the deposit to a level of 5%.

The client is purchasing EUR using CZK

The date of the forward transaction	1.9.2014
The exchange rate	CZK 27.50 per EUR
The value of the forward transaction (in EUR)	EUR 100,000
The value of the forward transaction (in CZK)	CZK 2,750,000
The amount of the deposit (5%)	CZK 137,500
The date of the settlement of the forward transaction	1.10.2014

CZK strengthens over the duration of the forward transaction

The current date	15.9.2014
The current exchange rate	CZK 26.80 per EUR
The current deposit	CZK137,500 (2,750,000 x 0.05)
The original value of the forward transaction	CZK 2,750,000 (EUR 100,000 x EUR/CZK 27.50)
The current value of the forward transaction	CZK 2,680,000 (EUR 100,000 x EUR/CZK 26.80)
Potential profit/loss	CZK -70,000 (CZK 2,750,000 - CZK 2,680,000)

Current securing of the forward transaction in CZK **CZK 67,500**
(the deposit of CZK 137,500 – CZK 70,000 for potential loss)

Current securing of the forward transaction in % **2.45%**
(current securing of CZK 67,500/CZK 2,750,000 of the original value x 100)

How much should the deposit at Citfin amount to **CZK 207,500**
(a 5% deposit of CZK 137,500 + CZK 70,000 for potential loss)

It is necessary to replenish the deposit in the amount of **CZK 70,000**
(the requisite amount of the deposit of CZK 207,500 – CZK 137,500 of the current deposit)

In the event that the crown should subsequently return to a weaker level, Citfin will return the replenished amount of the deposit to the client.
